On-the-Go Operations**

 www.inubesolutions.com
 info@inubesolutions.com

Experience a revolutionary Mobility Suite, meticulously designed to empower your team to efficiently manage more tasks in less time, with fewer resources, enabling a **4X productivity**.

iNube's Mobility suite is carefully engineered by the in-house Insurance Experts to fit the needs of the Insurers across lines of businesses.

Maximize productivity by 4X with minimal resources and time.

Drive Insurance operations digitally over mobile devices, like you have never imagined!

End-to-end Automation

Streamline processes with RPA for easy surveys, instant report generation, fraud detection and more, all in a single platform.

Reduced TAT

Enhance underwriting efficiency with faster decision-making to achieve never-before Turn Around Time.

Enhanced Efficiency

Save costs and time to better utilize your resources and accomplish more tasks in less time.

Maximised Productivity

Facilitate real-time decisions and manage exponentially more claims per month with faster decision-making.

Property Risk Surveys

Empower your underwriters with instant risk survey reports for quicker decisions. Simplify complex surveys into guided processes with intuitive and adaptable mobile apps, designed in-house by experienced risk engineers.

Claims Investigations

Streamline claim investigations across diverse business verticals, boosting Investigators efficiency through digitization and automation. Trusted by leading insurers and TPAs for its effectiveness across all sectors

Vehicle Inspections

Revolutionize vehicle inspection management with this workflow-enabled solution. Streamline break-in inspections for insurance renewals, ensuring accuracy, authenticity, and superior customer satisfaction.

Live Video Streaming

Enable efficient and effortless remote operations with our secure live video streaming solution. Conduct on-field activities from the office, ensuring real-time decisions, enhanced resource utilization, and significant savings in cost and time.
